CERMET SILVER CONDUCTOR 9627

RoHS Compliant* Conductor for use with Fuel Cells

ESL 9627 is a silver/palladium conductor designed for use as a current collector for solid oxide fuel cells.

PASTE DATA

RHEOLOGY: Thixotropic, screen printable paste

VISCOSITY: (Brookfield HBT, SC-14 Spindle, 10 rpm, 25.5°C±0.5°C) 65±25 Pa⋅s

BONDING MECHANISM: Fritless

COLOR: Grey

SHELF LIFE: (at 25°C) 6 months

PROCESSING

SCREEN MESH/EMULSION: 325/15 - 25 μm

LEVELING TIME: (25°C) 5-10 minutes

DRYING AT 125°C: 10-15 minutes

SUBSTRATE OF CALIBRATION: ESL 41010

THINNER: ESL 401

TYPICAL PROPERTIES

FIRED THICKNESS 5-10 μm

RESISTIVITY: (when normalized @ 20 μm & co-fired with ESL 41010 tape) ≤ 100 mΩ/sq.
* Complies with RoHS, ELV, WEEE and CHIP 3 EC directives.

**CAUTION:** Proper industrial safety precautions should be exercised in using these products. Use with adequate ventilation. Avoid prolonged contact with skin or inhalation of any vapors emitted during use or heating of these compositions. The use of safety eye goggles, gloves or hand protection creams is recommended. Wash hands or skin thoroughly with soap and water after using these products. Do not eat or smoke in areas where these materials are used. Refer to appropriate MSDS sheet.

**DISCLAIMER:** The product information and recommendations contained herein are based on data obtained by tests we believe to be accurate, but the accuracy and completeness thereof is not guaranteed. No warranty is expressed or implied regarding the accuracy of these data, the results obtained from the use hereof, or that any such use will not infringe any patent. Electro-Science assumes no liability for any injury, loss, or damage, direct or consequential arising out of its use by others. This information is furnished upon the condition that the person receiving it shall make their own tests to determine the suitability thereof for their particular use, before using it. User assumes all risk and liability whatsoever in connection with their intended use. Electro-Science’s only obligation shall be to replace such quantity of the product proved defective.
